NOTICE.

WE guarantee all our Block-printed Papers (including those in the 2nd Section of this book), to be free from Arsenic. All the Machine made Papers in the 1st Section are Non-Arsenical in their nature, and we believe they also are entirely free from Arsenic, but when a specific guarantee is required, any of them will be specially tested on application free of charge.

A large number of the papers in this book are printed in washable colors which will not run, or smudge, when wetted with paste, or water.

The block-printed patterns on toned paper are the cheapest hand-made papers it is possible to produce. They are well suited for finished work where economy is an object, or as substitutes for more expensive papers where walls are not dry enough for permanent decoration, in which case they save the expense of lining paper.

Many of our Block-printed papers are made WASHABLE *by a new process which can be applied to all colors, except a few exceptionally delicate tints, at an additional cost of* 1*d. per yard.*

In addition to the collection shown in this book we have a great variety of patterns including Dados, Borders, Friezes, Raised Flocks for painting over, Embossed Leather Papers, &c., in almost every known style, to the manufacture of which, in the most carefully considered colorings, we devote close personal attention. We also have a well selected stock of private designs in "Anaglypta," "Asbestos" Salamander relief decorations (fireproof), real Japanese Leathers. &c.

We print, and are Trade Agents for the sale of, Mr. J. Aldam Heaton's private designs in Wall and Ceiling Papers, and we have a large staff of skilled men, constantly employed on similar work which we are able to execute expeditiously and economically.

Enquiries relating to special requirements, which will be highly esteemed, will meet with prompt and careful attention.
